

# THE HEARTH IS DYING or The Interstellar Arch' epic journey

## 1/ THE EARTH IS DYING

The earth is dying  
lives his last hours  
The stars are in tears  
There will be no more flowers

Man neglects the earth  
carbon, the atmosphere  
Melt are the ice floes  
Time acts as it pleases

Cooled are the Oceans  
Compromised is the balance  
Storms, hurricanes  
Everything scampers off

The earth is dying  
lives his last hours  
The stars are in tears  
There will be no more flowers

In the north the floods  
Repeated earthquakes,  
erupting volcanoes

In the south the drought  
Gigantic fires  
Nothing grows  
Death is on our tail

Exodus of peoples  
Riots are born  
conflicts are linked  
There is no lull

## 2/ THE INCREDIBLE SECRET

So many years ago,  
Was born the « Renaissance Ark ».  
Hanging on the sky,  
Far from the fatal fate,  
The interstellar craft,  
Badly worries, for the earth.

These days, in any discretion,  
Ending the huge construction.  
And like a great steel dove,  
Ready to take off.  
The hope of all mankind,  
Suspended on its flight.

Chorus

The « Renaissance Ark » is ready  
To save humanity  
In space, we'll have to flee  
Everything remains to be rebuilt  
Yes, everything to be rebuilt

Right now on earth  
The selections are ending  
The professions are chosen  
To keep the bare necessities  
For a total autonomy  
To live in complete autarky

Odyssey will be extended  
Who will save humanity  
pitfalls will be defeated  
What will be their destiny  
What will be the destination  
For those couple's évasion.

Chorus

The « Renaissance Ark » is ready  
To save humanity  
In space, we'll have to flee  
Everything remains to be rebuilt  
Yes, everything to be rebuilt

### **3/ HEARTH BREACKER**

Today is a fantastic day  
Finally the long night ends  
We still have to make illusion  
to do not awake suspicion  
for Avoiding panic movement

Now everything is different  
It's a very important event  
In front of us a wall of shuttles  
The last humanity's hope  
The countdown can go on

six, five, four, three, two, one, go

in pains in true way  
A truly heart breaker  
The earth spit its guts  
In a deep cloud of smoke  
Spaceships come alive  
Slowly they flew away

Chorus:

We kept the project secret  
to achieve a great success

We shouldn't have any regrets  
Since we had only to run away

Now the earth moves away  
Behind us, streaks arrive  
stretching , tear the sky  
Weaving a lace network  
Far from us the earth on fire  
Only bright spots remain

Now the ark appears  
The project is real  
The humanity hope  
in front of us is revealed  
In space we could flee  
everything we could be rebuilt

Chorus:  
We kept the project secret  
to achieve a great success  
We shouldn't have any regrets  
Since we had only to run away

#### **4/ THE INTERSTELLAR ARCH NAMED REBIRTH**

Like a gigantic cathedral  
Made of tears and metal  
In front of us the ark is standing  
Hang on to the celestial vault  
A strange fresh air caresses us  
Removing all sources of stress

Inside the imposing vessel  
Standing up without a word  
Humbly and proudly  
In front of the mankind hope  
Suspended seems the time  
Solemn are these moments

Chorus  
The Ark is well born  
To save humanity  
Our time is over  
Space is our future

Like Noah in his time  
The essentials for life  
With care has been selected  
Arranged, installed, assembled  
To accomplish our quest  
Find a new planet

Everything is already in ship  
Obviously thousands animals  
At least their DNA  
For plants, only their seeds  
Thousands of sleeping settlers  
Finally a seasoned crew

Chorus  
The Ark is well born  
To save humanity  
Our time is over  
Space is our future

## **5/ OUR DESTINY IS NO LONGER BELONGS TO US TO BE WRITTEN IN ENGLISH**

Les homm' sont prêts à bord  
Les préparatifs terminés  
Fixer sur notre sort  
Nous sommes tous déterminés

L'arche enfin prend vie  
L'équipage est aux commandes  
On a plus de sursis  
Il faut partir, on nous le commande

Adviene que pourra  
C'est notre dernière chance  
Adviene que pourra  
Il nous faut avoir confiance

Tout est paramétré,  
Pour parcourir tout l'univers  
où nous devons trouver  
la soeur jumelle de la terre

## **6/ INTERSTELLAR TRIP**

Spaceship has taken off  
Space station moves away  
Spaceship is gaining speed  
Go for the big trip  
through the starry sky  
in unknown space  
and its dark silence

computers take \* control  
Now Crew can withdraw  
fall asleep in turn  
Our destiny is no longer  
belongs to us  
Hope every things  
is going well

## **7/ SOLAR STORM**

No noise disturbs the sleep of the settlers.  
Only the noise of the thrusters disturbs this heavy silence.  
The ark has been in space for centuries now.  
In the unknown universe, always looking for the Earth's twin sister.  
Will we ever find this famous planet

Alert, alert, a solar storm is announced  
Solar flares send us gusts that will soon hit the ship  
Alert, Alert, the crew is awaited at the controls.

Texte après  
Calm seems to be back  
No damage to report  
Everything is operationnal  
The journey can resume its course  
Hope no further problem will arise
